Atlas of the Senseable City

Yale University Press, C. Ratti, A. Picon 2023

240 pages, 101 colour illustrations, 14 black & white illustrations, exploring how the growth of digital mapping, spurred by sensing technologies, is affecting cities and daily lives and examining how new cartographic possibilities aid urban planners, technicians, politicians, and administrators; how digitally mapped cities could reveal ways to make cities smarter and more efficient; how monitoring urbanites has political and social repercussions; and how the proliferation of open-source maps and collaborative platforms can aid activists and vulnerable populations, 23 x 25 cm, hardcover

50,00 EUR
