The Agile Rabbit Book of Historical and Curious Maps

Pepin Press, P. van Roojen (ed.), Amsterdam 2005
127 pages, ca 60 chiefly coloured maps, text in Chinese,
English, French, German, Italian, Japanese, Portuguese &
Spanish, CD enclosed, 28 x28cm, paperback

The map selection is of a great diversity in appearance and meaning; there are comparative overviews of the length of rivers and the height of mountains, nautical charts, medieval city plans, and maps from pre-historical times. Also included are images of how Europeans perceived the world, highly detailed bird's-eye maps from Japan, and archaic, captivating charts made by Native Americans and Australian Aborigines. Furthermore, there are a number of very extraordinary maps with a double meaning.
